

## OB-IMMINENT DELIVERY

Start Time: \_\_\_\_\_

Stop Time: \_\_\_\_\_ Date: \_\_\_\_\_

Candidate's Name: \_\_\_\_\_

Evaluator's Name: \_\_\_\_\_

	Points Possible	Points Allowed
Takes, or verbalizes, body substance isolation precautions	1	
Primary assessment	1	
<b>Note: the examiner states, " The patient has an airway. You observe her breathing is controlled. Her pulse is strong and rapid.</b>		
Determine if delivery is imminent	1	
<b>Note: the examiner states, " I am due any day now. I have 3 children. I have been having labor pains for 2 hours. My contractions are 2 minutes apart. My water has broken and the fluid was clear. I feel the need to push. I feel like I need to bare down.</b>		
Observe for crowning to determine if delivery is imminent	1	
Open OB kit	1	
Cleanse perineum	1	
Apply sterile gloves	1	
Drape patient, establish sterile field	1	
Apply gentle pressure to perineum and infants head to prevent explosive birth	1	
<b>Note: the examiner moves fetus through birth canal until head is delivered</b>		
Check for cord around infants neck. Loosen with 2 fingers. Slip over the head if possible. If necessary clamp in two places and cut between clamps	1	
Suction the mouth, then nose	1	
<b>Note: the examiner moves the fetus through the birth canal while the student assists with delivery</b>		
Apply gentle downward and upward pressure to release the shoulders	1	
Assess respiration, color and heart rate	1	
Wipe infant dry and cover	1	
Clamp the cord-approximately 10" from the neonate then 3" proximal from the distal clamp.	1	
Encourage mother to nurse	1	
Deliver placenta	1	
Assess for profuse bleeding	1	
Massage fundus	1	
Reassess both patients every 3-5 minutes	1	
Total:	20	

### CRITICAL CRITERIA

- \_\_\_\_\_ Did not take body substance isolation
- \_\_\_\_\_ Did not determine if delivery is imminent
- \_\_\_\_\_ Did not check for cord around infants neck
- \_\_\_\_\_ Suction in order of mouth then nose
- \_\_\_\_\_ Did not assess respirations, color and heart rate
- \_\_\_\_\_ Did not wipe infant dry and cover
- \_\_\_\_\_ Did not clamp cord appropriately
- \_\_\_\_\_ Did not assess for profuse bleeding
- \_\_\_\_\_ Did not state reassessment every 3 - 5 minutes
